| Fuel type ² | Diesel | super unleaded, 95 RON |
| Fuel consumption ³ in km/l | 12.30 | 9.82 |

Notes

¹ Unladen weight without driver (determined in accordance with the current version of Directive 92/21/EEC). Optional equipment may increase the vehicle's unladen weight and drag coefficient, thus reducing the potential payload and top speed accordingly.

² Recommended fuel is super unleaded with 95 RON. If this is not available, normal unleaded 91 RON may be used; power output will be slightly reduced.

³ Fuel consumption figures mentioned are as per the tests conducted by the ARAI.

Important note

Inspections are due as shown on the service display.
