The fascination of Audi
Technical data
The new Audi A5 Sportback is functionality in its most progressive form. With its more sharply defined design, refined suspension, powerful engines and innovative assistance systems, it is turning progress into a whole new experience. Yet again.
Top marks for progressiveness. Impressive all along the line.

Audi drive select as standard – the state-of-the-art technologies in the Audi A5 Sportback are pretty impressive. The same goes for its self-assured elegant look. Accentuated by coupé-style frameless doors, sporty chrome trim around the windows and the carefully sculpted rear section with elongated luggage compartment lid.

Some of the equipment listed is optional equipment for which an extra charge is made. Detailed information on standard and optional equipment is available at your local Audi dealership.
The standard LED* headlights offer significant benefits in terms of safety and comfort. In the Audi A5, 26 LEDs per headlight generate all lighting functions. In each headlight, 14 LEDs work together to generate the low and high beam lights, and they are supplemented by a module for the all-weather and turning lights. The light signature of the LED daytime running lights gives the car an unmistakable daytime presence. As do the dynamic indicators in the LED rear lights, an innovation whose aesthetic appeal is equally trailblazing. The optional Matrix LED* headlights make progress visible: with high-precision, individually controllable light-emitting diodes that adapt to road situations. Whether for the dipped or high beam, or for the cornering, country road, motorway or all-weather lighting functions, light adaption is fully automatic and controlled by the camera.

8

Lights up the darkness.
And the road.

Where innovations take shape: the interior.

Turn your ideas into reality in the interior of the new A5. From the seats and the leather steering wheel in 3-spoke design or the optional flat bottom steering wheel with multifunction plus, inlays to the optional contour/ambient lighting package. Every detail is made from high-quality materials and has a captivating first-class finish. For a unique look that is bound to turn heads.

Some of the equipment listed is optional and is subject to extra charge in some markets. Detailed information on standard and optional equipment is available at your local Audi dealership.
Drive like you are under open skies. Feel like you are on cloud nine.

The panoramic glass sunroof opens up whole new vistas at the push of a button and creates a feeling of freedom. Using the central locking, you can open the roof even before you get in. And close it after you get out. The progressive design is a perfect match for the sporty, elegant lines of the A5. And always shows you in the best light.
Maintaining an overview. With just one glance, Navigation, infotainment – the Audi virtual cockpit displays a host of information relevant to the driver, in superb detail and with a choice of two different views and the sport layout available in S5 Sportback. With large or small dials, all conveniently controlled from the steering wheel at the push of a button. The Audi smartphone interface¹ allows you to integrate data from your own smartphone into the vehicle.

Detailed information on standard and optional equipment is available at your local Audi dealership.
No one knows what the future holds. But we know what it looks like.

A wealth of functions in view and within reach: thanks to the Audi MMI navigation plus with MMI touch, 3D map display. The innovative Audi voice control system literally hangs on the drivers every word. With the 3D sound of the optional Bang & Olufsen Sound System, why not convert your Audi into a concert hall? And make every journey worthy of an encore.
Audi A5 Cabriolet

Day or night, on a coastal road or in the city - the Audi A5 Cabriolet will delight you on every journey. And right from the very first glance. Every detail emphasises its dynamism and progressiveness. The distinctive Singleframe, the sculpted shoulder line, the redesigned fabric hood – all unmistakable features that accentuate its sporty elegance.

Some of the equipment listed is optional equipment for which an extra charge is made. Detailed information on standard and optional equipment is available at your local Audi dealership.
Anyone not wanting to wait for the future: please press the start button.

It takes just one small action to unleash tremendous power. It’s equipped with a TDI engine, the Audi A5 Cabriolet delivers impressive levels of efficiency and sportiness. At the touch of a button, the hood can be opened in 15 seconds and closed in 18 seconds while driving at speeds up to 50 km/h. quattro all-wheel drive ensures more traction and dynamic performance. And the flat rear with third brake light integrated into the trim strip of the hood compartment lid ensures that the Audi A5 Cabriolet maintains its illuminating presence even when braking.

New ideas often meet with resistance. Here, the opposite is true.

Some innovations sound like a good idea right from the word go. Take the seat belt microphones, for example. They ensure good voice quality when making phone calls, even when the hood is open. And as soon as you get in, you’ll be impressed by the new interior architecture. Finished to a superb quality, it’s also exceptionally spacious, giving you plenty of space for your own ideas.

What drives us forward: innovation.

Sounds good: the standard acoustic hood doesn’t just accentuate the classic convertible character of the Audi A5; it also provides effective insulation from exterior noise. Ensuring that the interior remains a haven of peace and quiet, even at high speeds. Thanks to the standard convenience opening feature, the hood can be opened or closed at the touch of a button. Operation is fully automatic at vehicle speeds of up to 50 km/h. All you have to do is enjoy the feel of the wind in your hair.
The new Audi S5 Sportback.

Sportiness taken to the next level: that’s the Audi S5 Sportback. The S-specific bumpers and twin tailpipes contribute visual expression to its performance. The LED rear lights with dynamic indicators emphasise the athletic body line. Making it clear immediately where you’re headed. And making a lasting impression on anyone who sees them. Even after the S5 Sportback has disappeared from sight.
Out of the blocks. With a show of power.

It doesn’t take long to form a first impression. After just 4.7 seconds, as you reach 100 km/h, you will be in no doubt: here is an athlete on top form. With S-specific sport suspension as standard, pure dynamism, experienced the way you want. At whatever pace you choose, thanks to quattro with self-locking differential.
Enthralling at lightning speed: the sporty interior.

The interior of the Audi S5 Sportback is proof of just how comfortable sportiness can be: with the S Sport seats¹ with rhombus pattern, S embossing and pneumatic massage function. Looking forward, the view becomes dynamic: the Audi virtual cockpit is a captivating feature, with an S-specific display for an even sportier look.

New standards are being defined when it comes to individuality, too. The contour/ambient lighting package enables you to tailor the colour scheme of the interior lighting to your own personal preferences. And make an impressive show of the entire interior. Every detail is chosen by you. To ensure everyone’s eyes light up.

**Notes**

1. The figure given has been calculated in accordance with the specified measuring procedure (current version of Directive 2007/71/EC).  
2. Unladen vehicle weight includes driver (68 kg), 75% of luggage and fuel tanks full, calculated in accordance with Directive 2001/74/EC. Optimal equipment may increase the overall weight and drag coefficient, whereas the possible payload limit and top speed will be reduced accordingly.  
3. We recommend using a lighter free-wheeling EDS for vehicles without quattro drive. If available, use a reduction in line with the requested final drive ratio.  
4. Under ideal conditions, the maximum engine output of 180 HP (135 kW) can generally be used.  
5. The maximum speed is calculated using specified measuring procedures as per World Stage 5 by the ADR.
